

"WILLIAM," NOT "WILLIE K."

**Farmer Says Millionaire Vander-
bilt Worked Just as Hard as
Any Ordinary Man.**

"I'll bet not many millionaires would cover themselves with dirt and work like a truck horse. Mr. Vanderbilt is all right," said farmer Alonzo Hulse, of Wading River, L. I. "They call him 'Willie K.," he resumed. "Any fellow who works that way is deserving of being called 'William.'"

William K. Vanderbilt, Jr., went to Wading River early in the week to look over the Deep Pond property which he and Harry Payne Whitney purchased some months ago. While there Mr. Vanderbilt drove his Mercedes car down toward the water. He entered a road with which he was unfamiliar, and which ended in a bridle path, deep in sand. His car stuck, and farmer Hulse and a number of his hands were called upon to release the young millionaire. Vanderbilt worked the hardest, besides directing just how the difficult task could be accomplished.
